

April 4, 2011

Dear Karim,

Let me start by saying a heartfelt thank you for volunteering at CSEME2011. I was really impressed by the caliber of professional attitude and aptitude that you displayed and I am glad you were part of our crew. Working with people who enjoy being there, who offer to help in any way and keep a smile on their face for the entire event makes it so much easier to work together to accomplish our goals of an enjoyable and successful event. Karim, you are highly skilled in event production, capable of finding efficient solutions with spur of the moment thinking and have a positive “can do” attitude that is supportive. I really enjoyed having an opportunity to work with you again this year and get to know you as a capable and qualified professional event planner. It was a pleasure working with you and I look forward to collaborating with you on future projects.

Volunteers are an integral part of any event big or small. Having great volunteers makes a difference and you should be proud because you truly worked well as a team and individually, you took direction well and your positive energy kept us going when it would have been easy to get stressed out. I hope you had an opportunity to gain valuable experience while working at our conference and trade show and that you enjoyed your experience. I wish you success and happiness in your career as an event planner and may you get out of it all that you desire.

Thank you again for donating your time and effort and I look forward to working with you again in the future. Please check out our website for photos of the event and updates on future shows and if you have any feedback you would like to share, your input is valuable and I would love to hear it.

Sincerely,

Stacy Wyatt
